Central Enteric Reference Laboratory & Bureau,

~~CENTRAL PUBLIC HEALTH LABORATORY,~~

COLINDALE AVENUE,
LONDON, N.W.9.

6th March, 1952.

Dear Dr. Lederberg,

Many thanks for your letter of 28th January. I must apologize for the delay in replying to it. I have been awaiting a decision of the World Health Organization concerning the award of a fellowship, but as I have not yet been informed of their decision I thought it better to reply to your letter without further delay.

I can easily appreciate the difficulties under which you are working from the point of view of space - we have to face much the same sort of problem here. I must thank you most sincerely for your willingness to let me spend some time in your department. Unfortunately, I should not be able to visit your laboratory towards the end of 1952, because my proposed programme whilst in the United States includes visits to other institutes which can only be carried out during the summer of this year. However, I have not yet given up hope of visiting you, and if I am awarded a W.H.O. Fellowship I shall certainly try to do so, if only for a short period.

Yours sincerely,

A handwritten signature in dark ink, appearing to read 'E. S. Anderson'.

E. S. Anderson
